representative of the College at Doshisha, and to teach English to Japanese students. No knowledge of the Japanese language is required.

The fellowship offers a stipend and an allowance for travel and incidental expenses, shared equally between Amherst and Doshisha. The fellowship year is normally from September to August. It carries with it formal teaching responsibilities in the English language at Doshisha University, at the first-year and second-year level. The academic year at Doshisha allows fellows to travel in Asia during February and March.

Interested applicants should contact the Office of Fellowships for more information. This fellowship is awarded by the Board of Trustees upon the recommendation of the Amherst-Doshisha Fellowship Committee.

The Amherst Memorial Fellowships. These fellowships, in memory of Amherst graduates who gave their lives for an ideal, are given primarily for the study of social, economic, and political institutions, and for preparation for teaching and the ministry. The fund was established because of the “need for better understanding and more complete adjustment” between humans and their “existing social, economic, and political institutions for the study of the principles underlying these human relationships.”

The object of the fellowships is to permit students of character, scholarly promise, and intellectual curiosity to investigate some problem in the humanistic sciences. During previous training candidates should have given evidence of marked mental ability in some branch of the social sciences—history, economics, political science—and have given promise of original contribution to a particular field of study. It is desirable that they possess qualities of leadership, a spirit of service, and an intention to devote their efforts to the betterment of social conditions through teaching in its broad sense, journalism, politics, or field work.

Preference is given to candidates planning to do advanced work in the field of the social sciences, but awards may also be made to candidates who are planning to go to theological school in preparation for a career in the ministry and to those from other fields than the social sciences who are preparing for a career in teaching in secondary schools or colleges.

The fellowships are for one year but, upon reapplication, may be approved for one or two additional years, depending upon the nature of the subjects investigated or upon other circumstances which, in the judgment of the committee, warrant a variation in the length of tenure.

The stipend will vary according to the circumstances of the appointment. Awards will depend upon those aspects of individual cases which, in the judgment of the committee, most suitably fulfill the purpose of the foundation.

These fellowships are awarded by the Board of Trustees upon the recommendation of the Faculty Committee on Student Fellowships.

Consideration is given to seniors or members of the classes graduated in the preceding six years. The fellowship is awarded to that graduate who, in the judgment of the Faculty, is best equipped for study and research, without regard to any other considerations, except that the Fellow should have an especially good knowledge of at least one modern foreign language and should have had at least one year of Latin in preparatory school or college. The three years shall be spent by the Fellow at a German university or other approved institution, for the study of philosophy, philology, literature, history, political science, political economy, mathematics or natural science. At least one college term of the final year shall be spent by the Fellow at Amherst College, to give lectures on a subject selected by the Fellow and approved by the Trustees. The candidate need not be an outstanding student, but improvement in the upperclass years, dedication, and a sense of purpose will be given great consideration. AMHERST COLLEGE is accredited by the New England Association of Schools and Colleges, Inc., a non-governmental, nationally recognized organization.

Accreditation of an institution by the New England Association indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer group review process. An accredited school or college is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the New England Association is not partial but applies to the institution as a whole. As such, it is not a guarantee of the quality of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the status of an institution’s accreditation by the New England Association should be directed to the administrative staff of the school or college. Individuals may also contact the Association by writing: New England Association of Schools and Colleges, Inc., 209 Burlington Road, Bedford, MA 01730 (781) 271-0022.

Student Absence Due to Religious Beliefs: The Legislature has enacted and the Governor has signed into law Chapter 375, Acts of 1985. It adds to Chapter 151C of the General Laws the following new section:

Any student in an educational or vocational training institution, other than a religious or denominational educational or vocational training institution, who is unable, because of religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination or study or work requirement, and shall be provided with an opportunity to make up the examination, study, or work requirement missed because of such absence on any particular day; provided, however, that such makeup examination or work shall not create an unreasonable burden upon such school. No fees of any kind shall be charged by the institution for making available to the said student such opportunity. No adverse or prejudicial effects shall result to students because of availing themselves of the provisions of this section.
