

~~~~~  
Amherst BioNews Monthly Newsletter - April 2019 edition

Greetings biology folk,

It's time for another edition of our monthly newsletter with all that's happening and exciting in Amherst College Biology!

- REMINDER: the national SACNAS conference is being held October 31-November 2 in Honolulu HI. The conference is an incredible opportunity to find out about grad schools, networking, get career advice, and present your research! Travel scholarships from SACNAS as well as from Amherst College are available.

<https://www.2019sacnas.org/>

- Congratulations to Jason Seto '19 and Eric Zhou '19 for their awarded English Teaching Assistantships through the Fulbright Program!

- Seniors, keep your eye out for a map in the department where you can place a pushpin on the location where you'll be heading after graduation!

- Check out the new exhibit at the Mead Art Museum: [Dimensionism: Modern Art in the Age of Einstein](#)

- The Moss Quantitative Center is still accepting applications (until April 8th) for the Biology Q Fellow:

Hope you all have a terrific April and stay tuned for another edition next month,

-the Biology Department
