**Amherst BioNews Monthly Newsletter - July 2018 edition**

Greetings biology folk,

Here's another edition of our monthly newsletter with all that's happening and exciting in the Amherst College Biology Department!

**~~NEWS~~**

- The Biology Department's Summer Research fellows (SURF, Greg Call fellows etc..) are in full swing and looking forward to presenting their research in poster format in the NEW Science Center. Stay tuned for details on the date and time of the Poster Session!
- BioBreakfasts each Thursday morning have been delicious and a great time for faculty staff and students to come together to discuss biology and culinary and everything in between. If you haven't been yet, be sure to stop by the McGuire 4th floor lounge.
- We're still on the move, Biology is moving to the new science center this August, stay tuned for updates.
- Chanyoung Park '16 and Prof Jeeyon Jeong published "*Synergistic Cellular Responses to Heavy Metal Exposure*" in *Biochimica et Biophysica Acta* (BBA) - General Subjects *In press*

**~~NEW ARRIVALS~~**

Prof Marc Edwards: Office Rm 423

Prof Katerina Ragkousi: Office Rm 140

**\*\*Be sure to stop by and say hi!\*\***

Best wishes for the remainder of July and stay tuned for another edition next month!  
-the Biology Department

Have something Department-related to share in the next newsletter? Please email Joe Trapani.
