ON-CAMPUS HOUSING: Alumni and their guests will be placed in their class headquarters as much as possible (first come, first served). If the class headquarters is full, alumni will be placed in another building, as close by as we can manage. The residence halls on the main quad are mostly doubles and alumni and their guests will be housed together in the same room. Most other residence halls on campus are singles, so alumni and their guests will be housed in adjacent rooms in these buildings. If your class headquarters is on the main quad and you are attending without a guest, but would like to be housed with a friend in a double room, please include that information below. If no such request is made, you will not be assigned a roommate.

Please remember: Residence hall rooms are functional (extra-long twin-size beds, sheets, towels, a pillow and a blanket are provided). There are no rooms with private baths. All residence halls and houses are non-smoking. The residence halls are not air-conditioned, and we encourage you to bring a fan. You will receive a confirmation of your room reservation when you register; however, you will not receive your room assignment until you arrive on campus.

Please indicate how many people in your party will be staying on campus for each night of Reunion below. Please note: on-campus housing is complimentary for alumni and one guest when they are returning to campus for their 60th Reunion or for any post-60th years.
