79 South Pleasant 2nd Floor Construction

Date Issued: October 12, 2015

General description of impact: Construction of additional office and conference space on the west side of the 2nd floor of 79 S Pleasant Building:

- Work will take place during the day, starting early morning (before 7:00 A.M.) and typically ending around 4:30 PM.
- There will be noise, dust and paint odors - but we anticipate that this will be intermittent.
- Contractors will require areas around the building for deliveries and staging. We hope to minimize the impact on our already tight parking situation, but visitor parking may be reduced.

People and vehicles are requested to exercise additional caution while construction workers and vehicles are present.

Start Date: Week of October 19, 2015
Anticipated End Date: Mid-January, 2016

Your cooperation is greatly appreciated.
If you have any questions please call the Service Center, X-2254.
