Fellowships

COLLEGE FELLOWSHIPS

ROM the income of the College's fellowship funds, approximately 170 awards are made annually to graduates of Amherst College for study in graduate or professional schools. Applications should be made by February 10 on forms available in December from the Office of Fellowships. This same deadline applies to seniors and to graduates. You need not have been accepted at graduate school to apply, but the awards are made contingent upon final enrollment. The awards are based on merit and need (except for the Kellogg and Rosenblum) and are determined by the Faculty Committee on Student Fellowships. An exception to this is the Amherst-Doshisha Fellowship for which the deadline is early in November and for which there is a special Selection Committee.

The Amherst-Doshisha Fellowship. Amherst-Doshisha Fellowship at Doshisha University, Kyoto, Japan, is open to graduating seniors and recent alumni of the College for a term of one, or in some cases, two years. The recipient will have the opportunity to work with a professor and representative of the College at Doshisha, and to teach English to Japanese students. No knowledge of the Japanese language is required, but many recent fellows have spoken Japanese to a greater or lesser extent.

The fellowship offers a stipend and an allowance for travel and incidental expenses, shared equally between Amherst and Doshisha. The fellowship year is normally from September to August. It carries with it formal teaching responsibilities in the English language at Doshisha University, at the first-year and second-year level. The academic year at Doshisha allows fellows to travel in Asia during February and March.

Interested applicants should contact the Office of Fellowships for more information. This fellowship is awarded by the Board of Trustees upon the recommendation of the Amherst-Doshisha Fellowship Committee.

The Amherst Memorial Fellowships. These fellowships, in memory of Amherst graduates who gave their lives for an ideal, are given primarily for the study of social, economic, and political institutions, and for preparation for teaching and the ministry. The fund was established because of the "need for better understanding and more complete adjustment" between humans and their "existing social, economic, and political institutions for the study of the principles underlying these human relationships."

The object of the fellowships is to permit students of character, scholarly promise, and intellectual curiosity to investigate some problem in the humanistic sciences. During previous training candidates should have given evidence of marked mental ability in some branch of the social sciences—history, economics, political science—and have given promise of original contribution to a particular field of study. It is desirable that they possess qualities of leadership, a spirit of service, and an intention to devote their efforts to the betterment of social conditions through teaching in its broad sense, journalism, politics, or field work.

Preference is given to candidates planning to do advanced work in the field

of the social sciences, but awards may also be made to candidates who are planning to go to theological school in preparation for a career in the ministry and to those from other fields than the social sciences who are preparing for a career in teaching in secondary schools or colleges.

The fellowships are for one year but, upon reapplication, may be approved for one or two additional years, depending upon the nature of the subjects investigated or upon other circumstances which, in the judgment of the committee, warrant a variation in the length of tenure.

The stipend will vary according to the circumstances of the appointment. Awards will depend upon those aspects of individual cases which, in the judgment of the committee, most suitably fulfill the purpose of the foundation.

These fellowships are awarded by the Board of Trustees upon the recommendation of the Faculty Committee on Student Fellowships.

The John Mason Clarke 1877 Fellowship in Paleontology and Geology. A fund from the estate of Noah T. Clarke was established in memory of his father, John Mason Clarke 1877, to provide income for a fellowship or fellowships for the pursuit of studies in paleontology or geology, preferably in the New York State Museum in Albany, New York.

The Evan Carroll Commager Fellowship. This fund, established by Professor Henry Steele Commager in memory of his late wife and "as a testimony to her affection for this College," enables an Amherst student to study at Cambridge University. The fellowship is for one year but, upon reapplication, may be approved for a second year. The award is open to any student, with preference to seniors and to those applying to Peterhouse, St. John's, Trinity, or Downing College.

The Henry P. Field Fellowships. Two fellowships are available from the income of the bequest of the late Henry P. Field 1880 to promote graduate study in the fields of English and history. Appointments are made annually by the College on the recommendation of the departments of English and history.

The Warner Gardner Fletcher Fellowship. The income from a gift from the late Warner Gardner Fletcher '41 is awarded to "pursue work for the improvement of education." Preference is given to candidates who are engaged in the study of education and then to candidates for the Master of Arts in Teaching.

Seth E. Frank '55 Fellowship. Established in 1997 by Seth E. Frank '55, the income from this fund is to be used annually for post-graduate work by a graduate of Amherst College. The fellowship is to be awarded to a graduate who has demonstrated exceptional ability, interest, and achievement in the area of International Relations. The fellowship is not limited to graduate study but may be awarded for other endeavors which are international in scope.

The Roswell Dwight Hitchcock Memorial Fellowship.
