The total amount you will pay for an Amherst Student Loan will vary depending on how much you borrow and when you start to repay it. This repayment example assumes that you are enrolled for 4 academic years, and includes a 6-month grace period before beginning repayment. It is based on the fixed interest rate of $0 \%$ during enrollment and the 6month grace period after graduation or termination of studies and $5.0 \%$ during repayment. For loan amounts of $\$ 4,715$ or more repayment will last 10 years, beginning when the grace period has ended. Because there is a monthly minimum payment of $\$ 50$, for loan amounts less than $\$ 4,715$ repayment will last less than 10 years, beginning when the grace period has ended.
