2019

BROMERY EVENTS

The Department of Geosciences and the W.E.B. Du Bois Department of Afro-American Studies invite you to join us in celebrating the legacy of UMass Chancellor and Professor of Geosciences Randolph (Bill) Bromery.

DISTINGUISHED SCHOLAR

DR. LUDMILLA ARISTILDE

Dr. Ludmilla Aristilde is an Associate Professor of Biological & Environmental Engineering at Cornell University. She received her Ph.D. in Molecular Toxicology from the University of California-Berkeley and conducted research as a Fulbright Scholar in France and an NSF Postdoctoral Fellow at Princeton University. Dr. Aristilde’s work contributes to a fundamental understanding of the “why” and “how” of the environmental behavior of biologically active organic molecules, with implications for ecosystem health, agricultural productivity, and biotechnology. She is the recipient of a 2017 NSF CAREER Award.

THURSDAY APRIL 18TH

5:00–7:00 PM | LIFE SCIENCE LAB. (LSL) 330
Black Studies, Geosciences, and the Global Quest for Environmental Justice

Join us for a dinner-panel to discuss selected readings from Toxic Communities by Dr. Dorceta Taylor and initiate inter-departmental conversations about environmental justice.

Panelists: Dr. Aristilde, Dr. Justin Richardson, Candace King, Raquel Bryant, Cécile Yézou

RSVP HERE: tinyurl.com/BromeryPanel

FRIDAY APRIL 19TH

2:00–3:30 PM | DESIGN BUILDING ATRIUM
DEPARTMENT POSTER SYMPOSIUM

Sign up to present: tinyurl.com/BromerySymposium

Refreshments will be served.

3:30–4:30 PM | DESIGN BUILDING 170
Bromery Lecture by Dr. Aristilde:

Molecular Connections in the Cycling of Water and Carbon in Terrestrial Ecosystems

Refreshments will be served.

These events are supported by Bromery funds and CNS. Find out more at https://www.geo.umass.edu/about/bromery
