Come to TGiRx tomorrow to hear from

Dalya Ackerman & Annika Baldwin – 1:00pm in BEBU 100

We will here from Dalya and Annika on their internship in the Beneski Museum of Natural History

2nd Annual Geology Department Moving Night

Thursday April 14 – RSVP and cast your [VOTE!](#)

Local opportunities and fun things to do:

- 5-College Consortium is looking to hire a tech savvy new or recent graduate to support IT services. A degree in computer science is not necessary. Read more and apply [here](#).
- UMass is offering Glassblowing for Scientific Apparatus on Thursdays and Fridays. Read more about it [here](#).
- SURF + Programming Assistant position available. Apply [here](#).
- The Amherst Garden Project, lead by Talia Ward '23 and Sophie Sweeney '23, is working to establish a garden in the unused green space near Merrill apartments. They are seeking volunteers to help, plant weed and maintain. Their goal is to not only increase the presence of native plants on campus, but to invite wildlife as well as community members to explore, interact with, and appreciate this garden. Sign up [here](#). Questions contact: amherstgardening@gmail.com or follow on Instagram [@amherst.gardening](#)
- [Anne McClintock to give the UMass English Department annual Troy Lecture](#) - Anne McClintock, the A. Barton Hepburn Professor in Gender and Sexuality Studies at Princeton University, will speak on "Monster. A Fugue in Fire and Ice." on Thursday, April 14 at 4:30 pm. Professor McClintock will follow the multiple spaces of monstrosity from the depths and the surface of the Gulf of Mexico to the Northern Iceworlds of Greenland, engaging three of the great crises of our time—climate catastrophe (especially melting ice and rising oceans), global militarization, and mass displacement. It is free and open to the public and will take place on Zoom. Register for the event [here](#).
- [Environment for the Americas](#) coordinates paid internship opportunities for diverse youth interested in careers in natural resources, wildlife conservation, environmental education, history, and more with federal agencies across the country.
