

Geology Department Newsletter

March 29, 2022

The seniors enjoyed the opportunity to present and share their work at the Northeast GSA Meeting.

5-College Geology Lecture at Smith College

Dr. Elizabeth Cottrell from Smithsonian Museum of Natural History

Thursday, March 31

Title of her talk is "Generating Continental Crust in Alaska's Aleutian Arc"

Lecture starts at 7:00; Geology vans will be leaving from the ground floor entrance of Beneski (by the loading dock/dumpster) by 6:15 pm. Dessert and tea after the lecture. Plan to arrive back at Beneski at 8:45 pm. SIGN UP [here](#).

Come to TGiRx this week to hear from Micalah Spenrath.

Micalah is a current Master's Student in Environmental Engineering at Stanford University. She graduated from the University of Texas at Arlington in a BS in Environmental and Earth Science, and is passionate about the disparate impacts of human activity on the environment in diverse and low income communities, she is interested in understanding the life experience of geoscientists, and an active mentor (to our very own Isabelle Caban!).

Movie Night on

Thursday, April 14 in the Keefe Campus Center

*(*movie concession snacks will be provided)*

Loeb Center for Career Exploration & Planning... if you missed last Friday's TGiRx with guest speaker Carolyn Margolin from the Loeb Center. Here are just a few of what Carolyn mentioned during her visit:

- [How to Schedule a Meeting with a Career Community Advisor \(including Science and Tech Advisor Dr. Carolyn Margolin\) or Peer Career Advisor](#)
- [Request to join the weekly STEM Events and Opportunities Page](#)
- [Charles Hamilton Houston Internship Program](#)
- [Alumni-in-Residence](#)
- [How-to Guides](#)
- [Job Search Strategy Toolkit](#)
- [Use Handshake to find other Events, Programs, Jobs, Internships, and Schedule Meetings](#)

Summer internships & Job opportunities

[Williams-Mystic](#), the Coastal and Ocean Studies Program of Williams College and Mystic Seaport Museum is accepting applications for their field study programs.

[InterExchange](#) as a few spots left on the June 17-25 [Sustainable Action Costa Rica](#) trip, which may be of interest to students and alumni. The award-winning Sustainable Action Costa Rica program goes behind the curtain to explore this phenomenon in depth with 8 days of NGO visits, adventures, and guided discussions. The program takes travelers through Alajuela, Puerto Viejo, and Bri Bri. You'll visit nature and wildlife conservation projects, an indigenous community working to preserve their heritage and agriculture, and numerous outdoor highlights including waterfalls, beaches, and more! Applications will be accepted until capacity is reached. For more information visit: <https://www.interexchange.org/sustainable-action-costa-rica>
