

# Geology Department Newsletter

It's time to celebrate our Seniors

§

Professor Peter Crowley

Tuesday, May 17 @ 12:00  
Northside lawn of Beneski

## End of Semester Reminders:

**Seniors and students studying aboard....** It's time to return your Beneski keys. Please bring them to Diane in BEBU101B or give them to a faculty member.

**Course Evaluations** are open for the Geology Department- Please take time to [complete the course evaluation for your geology class.](#)

**Greg Call Internship in Geology with Dave Jones:** Join the Jones Lab for a six-week internship this summer! I am looking for one student to work 40 hours/week for 6 weeks (June 13-July 22) in my geochemistry research lab. The intern will learn and carry out a variety of lab duties, from cleaning glassware, crushing rocks, and performing acid digests of rock samples, to precision weighing and operating the isotope ratio mass spectrometer. In addition to the lab work, the intern will also compile, maintain, and analyze a database of geochemical data using R. The position will support a variety of ongoing and new research projects in the lab. No lab experience necessary, but previous coursework in Geology and/or experience in R are preferred. Position is funded through the Gregory S. Call internship program, and pay is \$15.25/hour with room and board provided. Search for position JR2692.

**Final TGiRx Friday, May 13th -- 1:00pm, BEBU311....** Come ready to tell us about your summer plans!
