

# PROJECT NOTIFICATION

## College Hall & Johnson Chapel- Lightning Protection Installation

Date Issued: November 19, 2021

### Description of Work & Impact

On Friday, November 26, 2021, contractors will be working on the installation of lightning protection in Johnson Chapel and College Hall. There will be no power to Johnson Chapel from 6:00am-8:00am. There will be noise associated with this work; a generator between Appleton and South Residence halls will be active. There will be no power to College Hall from 8:00am-10:00am. Fire alarms and battery-operated emergency lights will operate as usual.

**Accessibility Impact:** Access to the buildings will not be impacted at all but there will be no power to the buildings during the time of work.

**Date of Work: Friday, November 26, 2021**

**Time of Work: 6:00 AM – 10:00 AM**

Your cooperation is greatly appreciated
